Petition to Replace Repressive Officials

We, housed and homeless community members, demand immediate replacement of the City Manager Martin Bernal, City Attorney Tony Condotti, Assistant City Manager Susie O'Hara, and Police Chief Andy Mills for actions damaging the unhoused community and misleading information to the city.

Bernal has blocked vital reform efforts in the last year by the Progressive majority, essential for homeless health and safety as well as for the broader well-being of the community. Condotti has spearheaded criminalization of the homeless and devised laws expanding repressive police power. Mills is actively politicking for new repressive policies. O'Hara has repeatedly misled the public with false predictions about shelter, housing and services. We also urge immediate creation of oversight bodies directly accountable, accessible, and transparent to the community regarding their offices.

PLEASE PRINT carefully and clearly. Specify with an initial if you favor the

replacement of any or all of the four officials. You need NOT be an adult,

registered voter, citizen, or local resident to sign.
