5 C.F.R. § 1201.114(a)(5), (k) and ongoing national and international fights for the rule of law

Dear Ms. Everling,

I am filing this today concerning evidence that was not readily available before the record closed in my case (5 C.F.R. § 1201.114(a)(5), (k)).

This Pleading largely although not exclusively provides additional focus on the one made before your office on May 24, 2021 regarding Defense Department policy on extremism, but also goes directly to the information filed by me on April 14, 2019 before Judge Monique Binswanger on the “Extraordinary Release of New and Material Evidence: Federal False Statements (18 U.S. Code § 1001).”

https://www.academia.edu/45068264/International_Criminal_Court_Filing_Federal_False_Statements_18_U_S_Code_1001_in_the_case_o

As you will recall, among the many federal false statements they have made before the Court, Opposing Counsel claimed in their fallacious argument that I had promoted “damaging conspiratorial theories of wrongdoing by the agency.” This despite the overwhelming and incontrovertible evidence that I had already provided to the Department of Defense Office of Inspector General, the Intelligence Community Office of Inspector General, and to the Merit System Protection Board, about gross violations of federal and international law.

What follows below is the written testimony, ideas and recollections of a dozen ranking federal officials who served, among other places, in U.S. Southern Command, the Naval Special Warfare Command, the Federal Bureau of Investigation, as a DEA/CIA liaison, at the Defense Intelligence Agency, and at the National Defense University. Their opinions and revelations were just some of the many sparked in LinkedIn (as well as in Academia.edu and Twitter) by my continuing disclosures about the case before you.

A you know, LinkedIn is a powerful U.S. business and employment-oriented online service that
operates via websites and mobile apps. It is my understanding that MSPB personnel are able to use LinkedIn for their own personal and professional purposes, as can be seen here:

There are three parts to what follows: 1) a background/orientation brief in pictures; 2) examples of truth to power on LinkedIn, and 3) a telling postscript.
Please note that copies of this Pleading are being provided to the International Criminal Court as well as to the FBI, the first before whom I have asked that they issue at minimum an advisory opinion about my disclosures to the DOD and IC IGs, as well as to your Office.

The FBI is included in this Pleading should it be of interest to them to follow up. It is also my hope that your Office will not only allow this Pleading to be incorporated into the record, but that in the future I be able to seek further information from those included below.

Very Respectfully,

As President of the National Defense University, Ann Rondeau cost me, an already decorated national security whistleblower, many hundreds of thousands of dollars and my career for speaking out against #torture; colleagues later convicted of #murder; coup mongering; #racism; #corruption; #homophobia and yes, even #sexism. With her cover up and campaign of slander and libel supported by the DoD Inspector General, I had no choice but to go to the International Criminal Court in the fight against #crimesagainsthumanity.  
The good news? Rondeau was passed over for a fourth star, and was not given a combat command ... United States Southern Command.

“Should any American soldier be so base and infamous as to injure any prisoner... I do most earnestly enjoin you to bring him to such severe and exemplary punishment as the enormity of the crime may require. Should it extend to death itself, it will not be disproportional to its guilt at such a time and in such a cause... for by such conduct they bring shame, disgrace and ruin to themselves and their country.”

I conducted extensive interviews with twenty-eight current and former CHDS employees and reviewed nearly 500 pages of documents provided to me by the Center.

All employees were afforded the opportunity to submit sworn statements to raise specific allegations of misconduct.

The fact that the employees did not want to remain anonymous for fear of retribution, citing the examples of Mr. Martin Andersen and Mr. Frank McGrath from the Center’s leadership because they believe that the Center has shown a propensity to retaliate against employees that speak out against the Center’s leadership. When asked to provide specific examples of retribution for speaking out against the Center, employees again would not provide specifics. Some employees believe that the way Mr. Andersen was treated by the Deputy Director and the discontinuance of his employment as an employee was a direct result of these two employees voicing disapproval with the Center’s policies. Alternatively, some of the same employees believe that others were not disciplined when acting against the good order and conduct expected. The same example was often contrasted with the [redacted] of [redacted] employees to illustrate the differences in how the Center responded to insubordination or dissent.

Re: The Andersen Communication on VADM (ret.) Ann Rondeau, Glenn Fine, Marguerite Garrison, et. al

Dear Madam or Sir,

I am writing this today in support of Professor Martin Edwin Andersen’s request to investigate senior U.S. Department of Defense officials. His evidence illustrates the reason for the ICC’s objective to ensure accountability for the human rights crimes of concern to the international community.

Since 1979 I have served as the legal director of the Government Accountability Project. In this letter I am speaking for myself as a public interest lawyer and whistleblower advocate who has worked with over 8,000 whistleblowers, including Mr. Andersen that won him the U.S. Office of Special counsel’s Public Servant Award. My work includes having been sent repeatedly around the world in official programs supporting employee free speech rights by the U.S. government. In addition, I should point out that over the past two decades, Professor Andersen has been a whistleblower client, government accountability colleague, expert witness, co-author, and friend.

As you know, the Andersen Communication was formally sent to your office following the 17 March 2020 threat by U.S. Secretary of State Michael R. Pompeo to impose punitive measures against two named senior ICC staffs, other ICC staffs, and their families in the wake of the Court’s recent decision to proceed with an investigation of the conduct of United States military personnel in Afghanistan.

Mr. Andersen has credible evidence that the Pompeo diquisition was part of a series of attacks that seek to undermine, at the expense of the principles of international justice set down in the Nuremberg trials, the Court itself and to intimidate its staff in order to protect both political and private interests.

This combination of threats and the U.S. visa ban policy could undermine the Court’s overall ability to deliver justice to victims when States are unwilling or unable to genuinely investigate and prosecute crimes under the Rome Statute.
6 years ago this month the Miami Herald ran a series of stories about a National Defense University professor accused, among other things, of sexually perverse #torture carried out in dungeons. Protected by Ann Rondeau and her minions, the former Chilean #deathsquadr operative was nevertheless convicted in two separate cases of murdering unarmed dissidents. Rondeau has never apologized for her #conductunbecoming, including for her war on #whistleblowers who were vindicated by #facts on the ground... Mark Warner International Criminal Court Kevin Hall

On April 3, CHDS bade farewell to retiring Vice Admiral Ann E. Rondeau, president of the National Defense University. Admiral Rondeau will be retiring from NDU after 5 years of excellent leadership. After thanking Admiral Rondeau for her support of CHDS from the beginning of her term up until the present, CHDS Director Dr. Richard Downie presented her with a certificate, making her an honorary distinguished member of CHDS and ambassador of good will. Since her first visit to CHDS, very early in her tenure, he said, she has treated the Center as "one of your own." In return, Admiral Rondeau praised Dr. Downie for his work, not only as a retired soldier, but as a global thinker who values education and believes that all people matter. "We can have differences, and still work together for progress."

Images:

In 2015 the Center for Public Integrity, in an article focusing on alleged gross violations of human rights by senior Center staff, quoted an internal Southern Command document that reported that CHDS "staff had exchanged 'racially charged emails' — including one directed at President Barack Obama; used offensive language such as 'faggot,' 'buttbob' and 'homo'; and that 'women employees feel that they are treated inappropriately.' Even senior leaders used 'inappropriate hand gestures,' it said, and mentioned simulations of masturbation." [18]

Dear Martin,
My name is Brian Losey. I am writing you about your post on Glen Fine which also hash tagged Marguerite Garrison. I endured a bizarre kangaroo court through the auspices of Ms Garrison as a Navy Flag and watched Mr Fine attempt to account for it in a hearing called by then Reps DeSantis and Zinke. The Navy did their own review and acted as they felt compelled, which I appreciated. I remain completely baffled by what happened and the manner in which I was handled. I would appreciate a call with you to gain a better understanding of these two and the observations and perspectives which led you to post. Your post came to me via Robyn Gritz a former FBI SSA and work colleague who was also impacted by Mr Fine’s work. Thank you for considering. Brian

Glenn Fine is the swamp within the swamp. He did absolutely nothing for FBI Agents who brought serious cases to him. Instead, he aided those who were wishing to shut those agents up! I can not say enough about what damage this man did to DOJ and DOD. I now know he was involved in going after two of MY witnesses. We connected the dots! That is not seeking the truth. That is not justice! That is retaliation and tampering with a witness! I will always stand for the truth and seek what is right. Glenn Fine did not.

“Mr. Fine publicly portrays himself as a champion of whistleblowers and good government. That is false advertising. He has purged Pentagon OIG whistleblowers and consistently covered up misconduct they reported to him. In the back rooms, he led a successful loophole campaign to exempt all Offices of Inspector General from accountability through whistleblowing disclosures to the U.S. Office of Special Counsel.”

The #NationalSecurityArchive published the Defense Intelligence Agency report in 2004, four years before Uribe’s selection as winner of the Perry Award. This was its analysis of its credibility.

Is the Document Accurate?

As stated in the document, the report is "not finally evaluated" intelligence information. In other words, the information reported in the document is only as good as its source. In this case, the DIA has withheld from release the source of the information as well as the comments of the reporting official from the Department of Defense, making it difficult to verify the accuracy of the information listed in the document. However, the document differs from the average field report in several ways:

1) The summary indicates that information in the report was cross-checked "via interfaces with other agencies," indicating that some evaluation had already taken place.

2) The summary offers no caveats or qualifications on the credibility of the information and is stated as fact. It thus seems likely that the originator of the report (the "source") believed the information to be true.

3) The report includes many details like identification card numbers and dates of birth, giving it the appearance of an official, investigative document. The fact that the numbered list corresponds to photographs that were provided with the original suggests that the report had a variety of uses, including criminal investigations and immigration cases.

4) Much of the information on other individuals identified in the report is accurate and easily verifiable.

5) It is evident that a significant amount of time and energy went into compiling this report, and that it did not come from a single source at a cocktail party as these reports often do.
The National Security Archive published the Defense Intelligence Agency report in 2004, four years before Uribe won the Perry Award.

The morning of September 11, 2001 Secretary of State Colin Powell went on record with the adoption by the Organization of American States in Lima, Peru of the Inter-American Charter that the United States would never again engage in toppling an elected government in the Hemisphere by means of a military coup. Eight years later, after a coup d'état overthrew Honduran President Manuel Zelaya, the still newly minted President Barack Obama, my Commander in Chief, told the country that action, a violation of the Charter, was “illegal.”
