# Shame on Schiff

California Senator Adam Schiff is proud of his Judaism. But his actions show his lack of morality and common decency. He is giving Judaism a bad name.

Schiff doesn't LISTEN to us. We call, we send emails, we even tell him in person: "Stop the U.S.-Israeli genocide. Stop arming Israel." Doesn't he know that 83% of Democrats want a ceasefire and 62% want the U.S. to stop arming Israel?

Schiff is the poster child for Israeli lobbyists. He takes over \$1 million from the pro-Israel lobby. He's also very well paid by war profiteers Lockheed Martin and Boeing. He's an open and proud supporter of Israel's military agenda. When he says "the people of Gaza are cynically being used by Hamas as human shields" he is basically and immorally justifying the murder of thousands of children, doctors, teachers, grandmothers, with U.S. weapons.

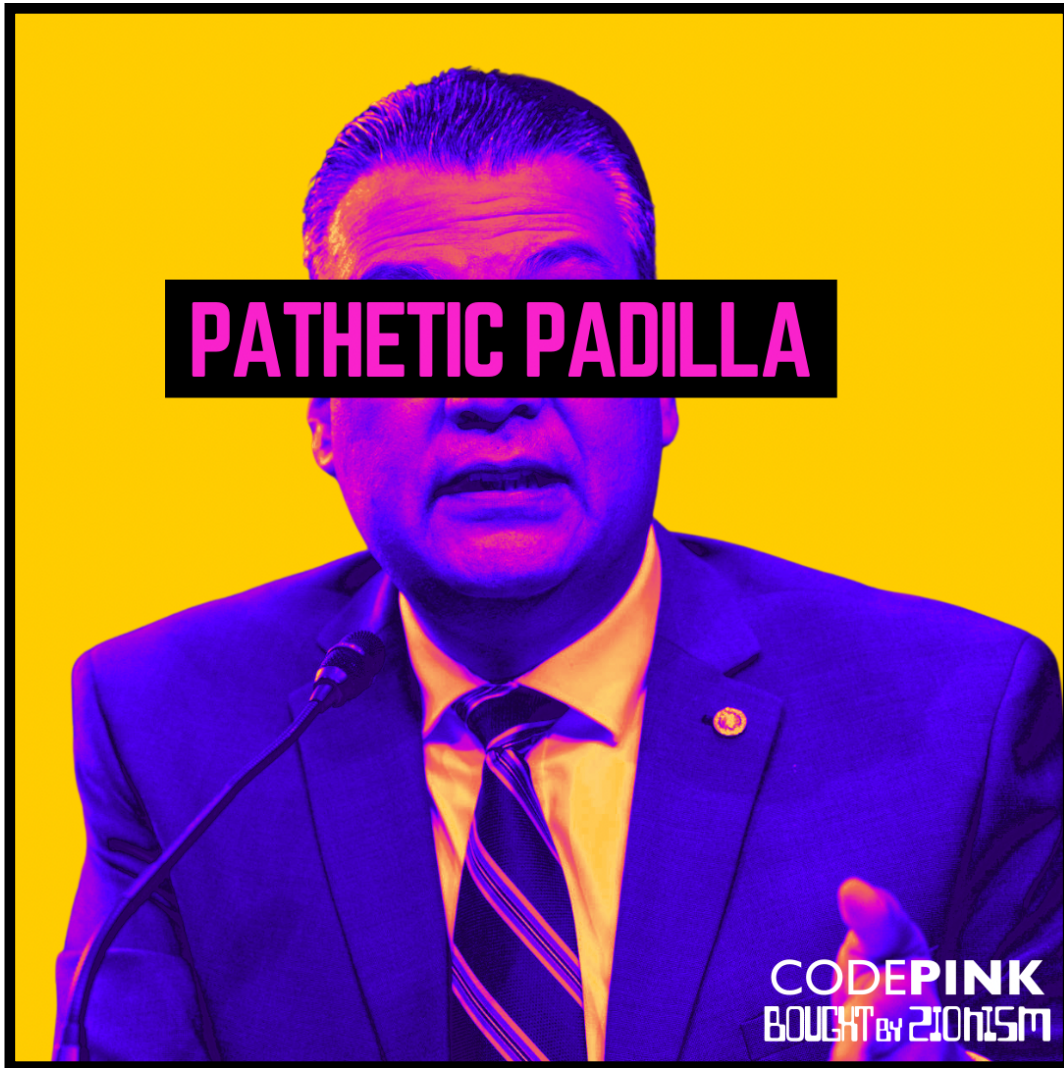

Israel has bombed healthcare facilities 167 times in Gaza since October 2023, killing over 198 medical staff. The bombing has also left 26 hospitals and 52 healthcare centers in Gaza out of service, including the destruction of 55 ambulances.

Adam Schiff is violating U.S. and international law by continuing to spend our tax dollars to supply 2000 pound bombs and hellfire missiles to Netanyahu.

- POLITICIANS BOUGHT BY ZIONISM

**Senator Alex Padilla**  
(D-CA)

**Bought for the Total  
Amount of: \$ 30,850**

It's no surprise Senator Alex Padilla is quickly raking in money from the Zionist lobby as he has used his seat in Congress to ensure Israel is equipped with billions of dollars in arms to use to commit genocide in Gaza. In Sen. Padilla's statement on the one year anniversary of Israel's genocide campaign in Gaza, he made no mention of the over 200,000 Palestinians murdered by Israel and instead undermined their extermination by choosing to highlight the Israelis killed on October 7 2023. Pathetic Padilla manufactures consent for Israel's genocide campaign in Gaza and greater occupation of Palestine by characterizing them as matters of "national security."

CODEPINKers in San Francisco disrupted an event Padilla was having in October of 2024, where they successfully pressured him to call for a ceasefire for the first time — after a year of genocide and hundreds of thousands of Palestinians murdered with weapons he sent to Israel.
