Gaza's situation is more urgent than ever: The Israeli-US genocidal horrors worsen as death by forced starvation and mass slaughter continue daily. The millions around the world rising up to stand with Palestine are being ignored by Western powers who continue to arm Israel as it blocks desperately needed humanitarian aid. Shamefully, Travis AFB is illegally shipping arms to Israel AND assisting in illegal mass deportations that are tearing families apart, while terrorizing our communities.

THE TIME IS NOW: Join us on June 24th to support our nonviolent Human Blockade to demand Travis stop sending arms to Israel & aiding mass deportations! Many roles are needed. Contact us for more info or if you have special skills to offer.
