2025 has been a terrible year for all we value in the U.S., and that is seen no more clearly and cruelly than in the attacks on immigrants. ICE's enormous, unprecedented funding means more detentions, more illegal deportations and the widespread use of fear tactics alongside the dismemberment of immigration courts.

Start 2026 by joining with us to hear accurate information regarding current federal policies and practices, and most importantly, to learn from key immigrant rights organizations about the most effective tools to fight back and protect our communities.

### **We Stand with Immigrants!**

**The Friends of La Peña Immigrant Rights (FLPIR)** is a volunteer group born in 2025 to confront the severe erosion of immigrant rights in the U.S. We provide educational workshops and materials that explain constitutional rights, including for those who are undocumented. We take action to monitor and protest violations and abuses of these rights while advocating for just and humane immigration policies. FLPIR is an independent organization working in coalition to promote “Know Your Rights” efforts and celebrate immigrants’ contributions to our society.
