California has the 4th largest economy in the world, so why do we lead the nation with the highest rates of poverty? With a \$4 trillion dollar economy, we could be guaranteed an affordable cost of living for everyone, overnight. But the politicians in power work for the billionaires, not us. It's time for working people to be in charge of state politics. The Vote Socialist 2026 candidates are working people who understand what it means to survive in California. The Peace and Freedom Party and Vote Socialist 2026 slate stands for putting people first: where housing is a human right, healthcare is put before profit, and everyone has quality education regardless of their zipcode. These candidates are also the only to offer a climate justice plan at scale. Join us to hear directly from 3 Vote Socialist campaign candidates.
