REAL-TIME CRIME CENTER IN THE CLOUD

/ FUSUSONE

- Streamlines emergency and incident management, by fusing all community's video assets into a single platform.
- Enables Real-Time Crime Centers to efficiently gather intelligence.
- Provides First-Responders with the tools to efficiently monitor and rapidly respond to evolving situations.

/ CORE

- Drop the fususCORE appliance onto any public or private video network and you have access to live streaming video feeds.
- The CORE appliance is compatible with a wide range of IP security cameras and is controlled and configured remotely using the fususONE dashboard.

/ AI

- AI capabilities enable smaller teams of law enforcement and security personnel to cover more ground.
- Allows you to maximize resources and work more intelligently.

/ OPS

- Enables First-Responders in the field to transmit their location.
- Send panic alerts, text alerts and send/receive images to communicate directly with the command center.
- FususOPS app is available via iOS or Android compatible devices.

/ ANALYTICS

- Enables law enforcement to unify their data and operations into a single platform.
- Facilitates the correlation of disparate data sources and automates the discovery of trends.
- Augments human intelligence for better decision making.

/ REGISTRY

- Saves time and enables investigations by creating a map of all the public and private security cameras in a location.
- When an incident occurs, investigators can use the fususREGISTRY to easily locate and reach out to all the camera owners in the vicinity and request video footage.

/ COMMUNITY CONNECT

- We work with you to engage your community and assist you with bridging the gap.
- Our goal is to work with your agency and make this partnership seamless.

/ TIPS

- Easy to use public safety utility that operates via text messaging.
- Members of the public can anonymously submit multi-media tips to the police department by either texting information, pictures, or video to a widely publicized number.
- Tips are parsed directly into the fususVAULT database for examination.

/ ALERTS

- App-based panic alert button.
- Alerts are geolocated in FususONE.
- Cameras can be automatically activated in the vicinity of a panic alert and accessed via fususONE and fususOPS.

/ LIVELINK

- Live video and audio sharing from any smartphone.
- No app required as a link is sent to the 911 caller via text message which immediately enables them to share live video with the agency.
- Continuous live geolocation of the caller shared with 911, even if the caller is in motion.

/ NOTIFY

- Text alerts can be sent directly via the fususONE interface.
- Simply choose to “opt-in” and that list of community members’ cell phones will receive the alert.

/ LISTEN

Dramatically improve officer awareness and responsiveness to calls-for-service as they unfold.

- Direct access to call for service playback via fususONE during the call and for a period of 30 minutes after a call has concluded.
- Playback of 911 calls accessible from both the CAD tray and map location.
- Roles-based access for officers in the field to understand the content and nature of the call.
- An audit log provide detailed access control to call recordings and playback.

/ VAULT

- Streamlines investigations with a cloud-based digital evidence vault for the secure collection of recorded incident video and data, including public tips.
- The digital evidence vault is easily searchable and enables users to cross-reference and group evidence related to the same cases, speeding up investigations.
